Description

The armourdog® rugged case for Lenovo Tab tablets delivers a complete protection system without adding unnecessary bulk or weight. The perfect accompaniment to the Lenovo when being used in a business environment such as retail, queue busting, hospitality, healthcare etc. The inner polycarbonate protective shell is remarkably strong and secures the Lenovo in place with inner non-slip pads. The thick, outer silicon wrap dissipates impact energy across a wide area, while innovative corner bumpers protect the Lenovo tablet if dropped, even screen down. The integrated and adjustable hand strap reduces fatigue when used for extended use in landscape or portrait orientation. The removable shoulder strap is adjustable, padded, comfortable, and can be secured to each corner. We can add your company logo to the cover and customise the case colours, dependent on order volume.

We pride ourselves in the top-quality materials and manufacturing process we use, which is why all armourdog® products are backed with a 2-year manufacturing defect warranty.

- Polycarbonate shell with impact absorbent silicon wrap for various Lenovo Tab tablets
- Adjustable hand and shoulder strap system
- Cut-outs for charge port, camera, and speakers
- Integrated kickstand
- Silicon corner bumpers for screen protection
- 2-year warranty
